// Email Description

We kindly but urgently request you to redesign our website. This would be an interim website therefore everything should be on one long page that someone can scroll down and see different sections with different information.

Find attached an example of the design and basically how we would like it to look like. Also find attached a canva link of a similar website we would like to emulate: <https://www.canva.com/>

Feature alot of the Company's Brand Colours and Blue.

Don't use Times New Roman as a text font. Sans serif fonts are modern and clean. You can select legal fonts that showcase the type of firm we are.

The rest of the team herein copied will share more relevant information/documents. My LinkedIn profile link is: <https://www.linkedin.com/in/>
